Brooklyn, NY, 11220 | (917)-203-7016 | yj3273@nyu.edu | linkedin.com/in/jainyash20 | github.com/yashjain20

EDUCATION

Master of Science, Information Systems

Expected May 2026

New York University, New York

Related Courses: Fundamental Algorithms, Database Systems, Data Science for Business, Data Visualization

Bachelor of Technology, Computer Science

May 2020

Amity University, Noida

Related Courses: Data Structures, Distributed Systems, Algorithm Design & Analysis, Operating Systems

SKILLS

- **Programming Languages:** Python, Java, SQL, JavaScript, HTML/CSS
- **Frameworks & APIs:** Spring Boot, RESTful APIs, Microservices Architecture, React
- **Cloud & Data Platforms:** AWS (S3, Lambda, Glue, Redshift), Microsoft Azure, Google Cloud
- **AI & ML:** PyTorch, Scikit-Learn, XGBoost, PySpark, LLM Integration, Pandas, NumPy
- **Databases & Tools:** PostgreSQL, MySQL, MongoDB, Power BI, Tableau, Git, Docker, Agile/Scrum

WORK EXPERIENCE

Summer Intern, *Pixis.ai*, New York

May 2025 – Aug 2025

- Streamlined reporting workflows by developing **Python** and **SQL** automation solutions, reducing data processing time by 30% and enabling 5+ cross-functional teams to access real-time analytics.
- Architected scalable **AWS** data infrastructure (**S3**, **Redshift**, **Lambda**) that improved query response times by 40% and achieved 99.5% uptime, supporting data-driven decision-making for 200+ stakeholders.
- Established automated data validation framework that improved accuracy by 20%, eliminating manual verification processes and ensuring data integrity for finance and operations teams.

Software Engineer, *Trewinia Infotech*

Nov 2022 – Jul 2024

- Engineered scalable ETL pipelines on **AWS Lambda**, **AWS Glue**, and **PostgreSQL**, processing 1M+ records daily with 99% reliability while reducing report generation time by 50% for 20K+ end users.
- Designed and deployed 15+ interactive **Power BI** and **Tableau** dashboards, enabling real-time tracking of sales, operations, and financial KPIs for 50+ stakeholders across 3 business units.
- Automated data aggregation workflows using **Python (Pandas)** and **SQL**, eliminating 20 hours/week of manual effort and enabling pricing teams to accelerate optimization initiatives.

System Engineer, *Tata Consultancy Services Ltd*

Feb 2021 – Oct 2022

- Developed scalable backend solutions using **Java**, **Spring Boot**, and **RESTful APIs** supporting 50K+ monthly transactions, translating business requirements into production-ready features.
- Improved system performance by optimizing **SQL** queries and **PostgreSQL** indexing (40% faster data retrieval), refactoring legacy code, and implementing caching mechanisms (35% faster API response times).
- Automated deployment and testing workflows using **Python** and **Git**, reducing manual support effort by 10 hours/week and eliminating deployment errors.

Graduate Teaching Assistant, *New York University*

Sep 2025 – Present

- Assisted in teaching 200+ students in Fundamental Algorithms and Database Systems, graded assignments, and evaluated algorithm correctness, time/space complexity, and SQL query optimization.

PROJECT EXPERIENCE

ML-Powered Audio Transcription & Summarization Platform, *NYU & NYPL*

Dec 2025

- Developed an end-to-end **AI-powered audio transcription and summarization system** using **Python** (Faster-Whisper, Qwen2-0.5B LLM) as part of an NYU capstone project in collaboration with the **New York Public Library**, processing 500+ hours of audio with 80%+ transcription accuracy and reducing manual effort by 95%.

Startup Success Prediction Model, *NYU Stern School of Business*

May 2025

- Built ML classification models (**XGBoost**, **Random Forest**) analyzing 100K+ Crunchbase startups to predict funding success with 85% accuracy, identifying key success drivers (team size, funding velocity, market timing) for investor decision-making.

AWARDS

Wasserman Center Internship Grant (Violet Internship & Research Award), *NYU*

Aug 2025

- Competitive \$2,000 merit-based grant awarded for academic achievement and professional development in data engineering and analytics.
